

# Infoline and Wipro jointly host tech meet in Oman

The Microsoft Tech Convergence event talked about the latest Microsoft Infrastructure Technologies on Windows 7, Exchange Server 2010, Windows Server 2008 R2 and Microsoft Virtualisation

Times News Service

**MUSCAT** | Infoline and Wipro jointly hosted the Microsoft Tech Convergence event on March 9 at the Crowne Plaza. The event turned out to be a grand success and was attended by key IT officials of all the ministries and the leading corporate sectors in Oman.

The event took the target audience through the latest Microsoft Infrastructure Technologies on Windows 7, Exchange Server 2010, Windows Server 2008 R2 and Microsoft Virtualisation.

Ramprasad, vice-president, Infoline LLC opened the event with a brief introductory speech highlighting on Infoline's recent achievement on Microsoft Gold Certified Partner status and said this distinction is given to companies who prove their competence in the latest Microsoft technologies. "As a Microsoft gold certified partner and along with a strategic partner like Wipro, Infoline will be able to provide enhanced solutions to its clients in Oman and build a positive customer experience with these technologies," he further added.

## Welcome address

The attendees were further welcomed and addressed by Ahmad El Dandachi, the country manager of Microsoft Oman, who highlighted on the competencies and capabilities of Infoline and Wipro — both being Microsoft Gold Certified Partners and highly recommended these solution providers for all Microsoft technological requirement and service needs of corporate and ministries in Oman.

The organisers ensured a highly informative and interactive experience for the audience with the entire event being split into independent sessions on

Industries across the domains are focusing on developing new solutions for their emerging problems. Every such solution is expected to facilitate productive change and new efficiency in their systems of operation and strategy

**Pinaki Kar** | GM, Gulf and Africa for Wipro Ltd

Windows 7, Exchange Server 2010, Windows Server 2008 R2 and Microsoft Virtualisation. These sessions were presented by qualified and competent IT consultants — Naik and Akshay — representing Infoline and Wipro respectively.

Through these sessions, the consultants briefed the audi-

ence on the features, benefits and utilities of the specific Microsoft solution followed by a live demo on the same.

Pinaki Kar, the general manager of Gulf and Africa for Wipro Limited said, "Industries across the domains are focusing on developing new solutions for their emerging problems. Every

such solution is expected to facilitate productive change and new efficiency in their systems of operation and strategy."

Kar further pointed out, "With proven global delivery model and strategic partnership with Microsoft at Wipro we observed that interconnected systems can transform the way

business is done both out as well as inside, any organisation's eco system."

## Technical expertise

Infoline's Microsoft solution will include offering technical expertise on network infrastructure, licensing solutions, collaboration, business Intelligence and ERP & CRM solutions for all verticals industries.

It boasts of a highly skilled team of Microsoft Certified professionals who have demonstrated a high level of technical expertise and a proven ability to deliver and implement solutions featuring Microsoft products.
